ABOUT US

The team behind Global Achievers Academy has been delivering outstanding summer camp experiences to young people for over 50 years. Each year we welcome in excess of 13,000 students to our range of young learner summer camps across the globe.

- **13,000+** students annually
- **50+ years** of experience in delivering award winning summer camps
- **18** summer locations in 2026
- **8** winter and spring camps in 2026
- **2** outstanding Global Achievers Academies
- **1 unforgettable experience!**

ABOUT GLOBAL ACHIEVERS ACADEMY

Our Global Achievers Academy programmes have been developed to nurture visionary leaders and support young people who aspire to be more and who want to make a difference. Global Achievers Academy encourages its students to explore their potential, equipping them with tools required to succeed in a more global world.

With young people aged 13-17 from all over the world joining our programmes, our students are immersed in a truly international summer school. They graduate as true global citizens who are better prepared for their next steps in life!

Choosing a summer programme with Global Achievers Academy means choosing an unforgettable summer that will help to develop future leadership skills, deepen knowledge, build self-confidence, broaden our students' horizons and grow their potential. Making memories and learning skills that stay with our students for a lifetime.

> I believe the most valuable part of Global Achievers Academy is the opportunity to join a program where students don't just study the language, but also take courses on important topics like IT, sustainability, history, and more. It's a truly unique experience, and there are very few summer programs like this in the world — especially those held on the campuses of prestigious universities like Harvard!
>
> The visits to MIT and New York were also really exciting, and our students loved being able to feel the vibe of American student life and imagine themselves as students at these universities' - *Galina (Chaperone), Russia*

SAFEGUARDING AND WELFARE

At Global Achievers Academy, we place the highest priority on the care and safeguarding of our students. Our teams work hard to ensure students feel relaxed, comfortable and supported - creating a safe and healthy home away from home.

24-Hour Support

Anyone who has questions or needs any kind of support can speak to our staff at the centre or contact our dedicated Global Achievers Academy 24-hour emergency telephone number.

Our Welfare Team

All of our centres have a dedicated welfare manager who is responsible for looking after the wellbeing of our students. Students also have a dedicated guardian and a guardian group within their cohort. Our guardians look after the day to day wellbeing of the students and make up the welfare team in place to keep our students happy, healthy and safe.

Meet-And-Greet Upon Arrival

Global Achievers Academy offers a dedicated meet-and-greet and transfer* service for all students to ensure a smooth arrival and transfer to centre. If you require an Unaccompanied Minor service then please let us know at the time of booking, there may be an additional charge for this.

Student Accommodation & Day to Day Care

Our accommodation comprises of single and twin rooms that are welcoming and comfortable. We separate males and females in the residences. Each academy destination provides 24-hour pastoral care required for the students in their residence, making sure they eat well and are happy and participating in the programme and checking in with them at the end of the day.

Departure Transfer

We offer a departure transfer* for all students and our team will also assist students checking in at the airport if they have prebooked an Unaccompanied Minor service.

* Students may be grouped together with others that are arriving at a similar time unless specifically requested that they travel individually.

Meals

A range of food is available at our academy locations with three meals served per day. On full-day excursions packed lunches will be provided in lieu of hot lunch at the campus. We provide a varied and healthy menu and are able to cater for students with allergies or special diets. We ask for this information ahead of their stay with us to ensure they are well catered for.

GuardMe Insurance

All students travelling abroad must have adequate insurance in case of a medical or other emergency. For those who do not have their own travel insurance, for an additional cost, we can offer a comprehensive insurance policy through our insurance partner GuardMe, which is specifically designed to meet the needs of international students. Please ask our admissions team for more information when booking.

THE GLOBAL ACHIEVERS ACADEMY EXPERIENCE

Our programmes build global changemakers through a unique and varied timetable.

Our summer academies provide an immersive, experiential and enriching learning experience. We cultivate critical thinking and equip students with the skills needed to become innovative and influential leaders in their chosen fields.

Our Architecture programmes is ideal for students who want to deepen their knowledge in a specific subject area and who may know what their future path looks like. Our flagship Global Leadership programme is perfect for students who either want a more varied view with insight in to wider subjects and topics that will give them an edge in their college or university applications, as well as for those young people who have yet to choose a specific academic path and would like to have a more varied summer school experience instead of following one or two academic subjects only.

Participation in the academy supports ambitious students in their applications for the Oxbridge and Ivy League universities, helping them stand out from the crowd.

With a focus on developing a deeper understanding of leadership and global perspectives as well as improving critical thinking and creativity, if you are a young person aged between 13-17 who wants to create a positive change and have a better understanding of what it means to be a global leader, then this experience is for you.

STUDENT JOURNEY

Each student embarks on a remarkable journey at our summer academies, below is a timeline highlighting some of the key elements that students experience during our unique programmes.

Start your global changemaker journey

Build global connections & make lifetime friends

HARVARD UNIVERSITY · Massachusetts Institute of Technology · UNIVERSITY OF CAMBRIDGE · UNIVERSITY OF OXFORD · UCL

Explore our inspiring host cities

Live like a local and explore everything that our locations have to offer, including visits to the world's best universities!

Learn from our expert Tutors, guest speakers and mentors

Our Expert Tutors support our students every step of the way, with guest speakers and mentors providing extra insights, personal experiences and new perspectives!

Build 21st Century Skills through experiential learning challenges

Take on exciting team challenges that help to build your skills in Communication, Critical Thinking, Collaboration and Creativity!

Collaborate to build meaningful group projects

Put your learning into practice as an international team, creating a group project that aims to tackle a global issue & support the UN 17 SDGs!

TRINITY COLLEGE LONDON Registered Exam Centre

Our London students receive a Trinity College certificate for the presentation of their projects, either individually or as a group!

Showcase and present your group project

Graduate as future global leaders!

GROUP PROJECTS

Our group projects challenge our students to work collaboratively in small international groups, with the support of our expert tutors and mentors, to create meaningful projects that will benefit the future of our planet.

The group project challenges our students to step into the role of global leaders by developing a fully conceptualized idea and strategic plan for a new venture. Whether it's a groundbreaking technology, an innovative company, or a sustainable development initiative, students collaborate across diverse perspectives to identify a global issue or opportunity and craft a creative, practical solution.

By taking ownership of each area of the project, our students strengthen their Critical thinking, Creativity, Collaboration and Communication Skills whilst demonstrating their ability to drive innovation in a complex, interconnected world.

TRINITY COLLEGE LONDON
Registered Exam Centre

TRINITY COMMUNICATION SKILLS EXAM

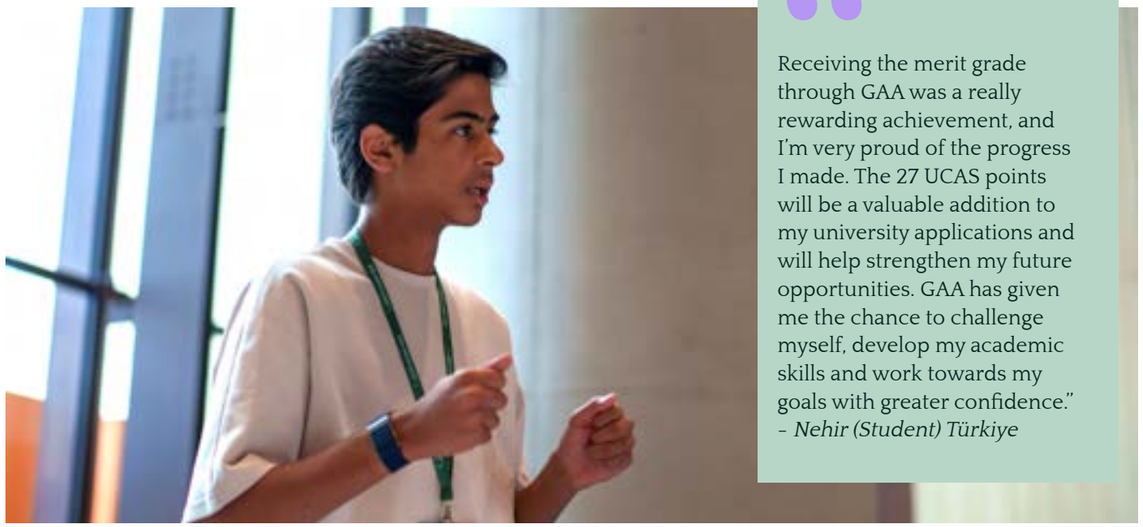

In addition to our certificate of completion, all students studying in London receive a Trinity College London certificate. For our students that are planning to study at a UK University, we also offer the option to take the solo exam which includes up to 30 UCAS points for UK university admissions.

The Trinity College London Communication Skills exam is designed to support students in developing a range of invaluable, practical communication and presentation skills, and to build confidence to make real progress in both education and the workplace.

Communication Skills is ideal for students who want to focus on practical, creative tasks that reflect real-world situations. There are solo and small group exam formats available from Initial to Grade 8. The group graded exam (included for all of our London students) allows students to work collaboratively to prepare a shared presentation, while the individual exam (available for an additional fee) promotes independence and accountability.

Individuals who pass at Grades 6-8 also benefit from gaining UCAS points which can be used for UK university applications.

We are extremely proud to have helped our students achieve a 100% pass rate with all of our 2026 students achieving a merit or distinction grade.

> “Receiving the merit grade through GAA was a really rewarding achievement, and I’m very proud of the progress I made. The 27 UCAS points will be a valuable addition to my university applications and will help strengthen my future opportunities. GAA has given me the chance to challenge myself, develop my academic skills and work towards my goals with greater confidence.”
> *- Nehir (Student) Türkiye*

UN 17 SUSTAINABLE DEVELOPMENT GOALS

The United Nations Sustainable Development Goals are 17 global priorities guiding action to end poverty, protect the planet, promote equality, improve lives, and build peaceful, prosperous, sustainable societies.

At Global Achievers Academy, we aim to directly support the United Nations Sustainable Development Goals by equipping young people with the leadership, knowledge, skills and innovation needed to advance sustainable development and positive global change.

Our curriculum has been carefully created to align with the United Nations 17 Sustainable Development Goals. Our curriculum includes lessons that directly link with the UN goals, including lessons on (11) **Sustainable Cities** and (13) **Climate Action**, (8) **Economic Growth** and (9) **Innovation**.

Our group project assessment criteria requires students to explicitly link their projects to the UN 17 Sustainable Development Goals (SDGs). As a result, our student projects are designed to address a specific SDG or set of SDGs. For example a Google Chrome browser extension that tracks users' online purchases and suggests lower-carbon and more environmentally friendly alternatives. This project therefore aimed to support SDG 12, **Responsible Consumption and Production**, and SDG 13, **Climate Action**.

LEARNING FROM THE EXPERTS

Our tutors are carefully selected for their expertise in teaching their subject areas. Each tutor is not only highly knowledgeable in their specific field, but also possess a strong ability to communicate complex concepts in a clear and engaging manner. All of our academic team have a genuine passion for teaching and a proven track record of helping students succeed.

We complement our curriculum with a variety of guest speakers, experts in their fields who visit our campuses to impart their knowledge and experience and provide students with the opportunity to take part in valuable Q&A sessions. Each cohort meets a minimum of one expert guest speaker during their programme. Some of our programmes also include site specific visits to enhance in classroom learning.

We also deliver fun and interesting MTa Insights workshops to support the development of the 4 C's; critical thinking, collaboration, communication and creativity.

I loved my friends and teachers. It was so great having them with me for 2 weeks. I can't believe that It has been two whole weeks already. If I had the chance, I would stay longer for sure. – *Yagmur (Student), Türkiye*

MEET THE EXPERTS

Sonia
Leadership Tutor (London)

Sonia is an experienced educator with over six years of teaching experience in international schools and academic enrichment programmes. Holding a BSc in Sociology and an MSc in International Development with Economics, she is passionate about helping young people develop critical thinking, confidence, and global awareness. Sonia has taught students from diverse cultural backgrounds and enjoys creating engaging, student-centred learning experiences that inspire curiosity and personal growth. She is committed to supporting students both academically and personally, helping them reach their full potential in and beyond the classroom.

Patricia
Sustainability Tutor (Boston)

Patricia is an educator and institute director with over 20 years devoted to developing young leaders. Her work with organizations such as the United Nations Environment Program, the International Institute for Environment and Development, and the European Environmental Bureau, has shaped major environmental policies and reflects her belief that informed leadership can create real global change.

A Marshall Scholar and valedictorian with advanced degrees in Geography and Environmental Studies. Patricia empowers students to think critically, lead responsibly, and step into challenges with confidence.

Alex
Technology & the Future Tutor (Boston)

Alex is a STEM educator, specializing in Teaching, Learning, and Culture. With over nine years of teaching experience across the U.S., China and Ghana, he brings a global perspective to education. Alex holds an MBA and a bachelor's degree in business administration.

Alex has taught Technology & the Future modules in Boston for several years and is passionate about empowering young people through engaging and confidence-building learning experiences.

Ariana
Finance & Economics Tutor (London)

Ariana is a Business and Management Educator with over 8 years of experience in higher education and academic mentorship, alongside serving as founder of an education consultancy. Ariana specialises in a consultative, student-centred approach, focused on experiential learning and practical outputs.

Ariana is passionate about interactive learning, analytical problem-solving, boosting creativity & innovative skills whilst successfully guiding students through exams and mentoring students to achieve top honours in major business competitions.

LEARNING OUTSIDE THE CLASSROOM

In addition to the academic content being taught in the classroom, our programmes are designed to provide our global achievers with learning outside of the classroom experiences such as visits to local museums, art galleries, or sports stadiums!

Each of our visits has been thoughtfully planned to provide enriching, fun-filled experiences that broaden our students' horizons. Each excursion is designed to complement our students' classroom learning, by exposing them to new environments, cultures and perspectives.

We believe that learning extends beyond the classroom and by immersing students in diverse real-world settings, we help them develop a deeper understanding of the subjects they study, as well as cultivating curiosity, critical thinking, and global awareness. Every visit is curated with the intention of inspiring creativity, encouraging personal growth, and preparing students to engage with the world in a meaningful way.

OUR UNIQUE PROGRAMMES

Our programmes are designed to combine academic learning with the development of practical skills that support students' future education and careers.

Through a multidisciplinary curriculum, students explore their chosen subject while gaining a broader understanding of how different fields are connected. Alongside subject knowledge, the programme develops key transferable skills identified by the World Economic Forum as increasingly important in the workplace, including creativity, digital literacy, collaboration, global citizenship, and environmental stewardship.

Students also strengthen their critical thinking, communication, teamwork, and presentation skills through workshops, project-based learning, and case study activities.

Learning continues beyond the classroom through a programme of educational excursions, visits to cities, museums, galleries, and other places of interest, complemented by organised afternoon and evening activities. These experiences provide opportunities to apply learning in real-world contexts, engage with different cultures, and build connections with students from around the world.

It was amazing. I had a really good time and I learned a lot. The staff are very kind and helpful. I will never forget about this wonderful time I spent at Global Achievers Academy. Thank you so much. – *Laura (Student), Slovakia*

GLOBAL LEADERSHIP PROGRAMME

Available in: Boston, London | **Ages:** 13-17 | **Duration:** 2 weeks

Our Global Leadership programme educates students through a unique and broad curriculum with students learning modules across 4 key subject areas across the two week programme. Global Achievers Academy is the only summer school in the world to offer such a wide and diverse educational experience. Our students really enjoy broadening their horizons by studying a number of inter-connected topics during their time with us. Our curriculum provides an exciting and holistic approach to learning about global leadership and the world in which our students will eventually lead. Read on to find out more about each of our four exciting subject areas!

Leadership

From styles of leadership to building successful business plans, as well as an exploration in to entrepreneurship and international relations, this diverse part of the curriculum aims to equip our ambitious students with a deeper understanding of how our planet is led. We study some of the world's most influential leaders, look at the various political systems around the globe, helping students to become innovative leaders themselves.

Finance & Economics

Encompassing a range of topics on finance and economics, from micro, to macro, to personal, this part of our curriculum will empower our future learners. Students are exposed to a variety of world leading business models and the economics behind them. They learn to understand how a business functions, how countries around the world are connected financially and how basic business budgets work.

Sustainability & The Environment

No programme that has a focus on future success would be complete without a part of the curriculum being dedicated to sustainability and the environment. Our curriculum works hard to embrace the United Nations Sustainable Development Goals in all of our destinations and covers such important topics as greener energy, climate change and corporate social responsibility. We want our future leaders to be socially aware and responsible and ensure they are driving positive change not only for themselves but for the world within which they live.

Techonology & The Future

With 'Generation Alpha' being described as the most technologically literate generation in all human history, and with our lives now taking us one simple click or spoken command away from information, these modules are designed to help teenagers understand the impact of technology on their lives and careers. With the rapid growth of the use of Artificial Intelligence in our everyday lives and at work, and the huge influence social media has on the world, our Technology & the Future modules will also help students develop a deeper understanding and a skillset to help them succeed in the 21st century workforce and beyond.

ARCHITECTURE PROGRAMME

Available in: London | **Ages:** 13-17 | **Duration:** 2 weeks

Whether participants dream of becoming architects, designers, or engineers, our Architecture Programme provides students with foundational skills, real-world exposure, and mentorship to help turn their ambitions into reality and support their future studies. Our Architecture programme educates students through a unique and broad curriculum with students studying a variety of modules alongside real world site visits in their chosen destination to enhance their learning. With key themes such as architectural history, materials and technology, sustainable design, re-use and the future of smart cities, students are encouraged to develop their own design projects, culminating in a final presentation where they showcase their ideas. Take a closer look at some of our key topics!

The History of Architecture

Students explore the evolution of architecture from ancient civilizations to modern design, linking the architectural story to the city they are studying in, as well as looking at some of the most iconic architectural masterpieces in history. We look at an overview of key architectural movements, cultural influences, and technological advancements, and highlight how history shapes the way we build. Through iconic structures and styles, students will discover the roots of today's architecture and its enduring impact.

The Fundamentals of Architecture

This topic introduces students to the fundamentals of architecture by exploring key concepts like form, function, and space. Our students examine historical styles, influential architects, and iconic global projects, gaining a basic understanding of how architecture shapes the built environment and reflects culture, purpose, and innovation across time.

Sustainabilty and Smart Cities

In these important, future facing lessons students look at how architecture can drive positive environmental change. They explores sustainable design principles, smart city technologies, and climate-responsive strategies that reduce ecological impact. Students will learn how architects create buildings and urban spaces that are energy-efficient, resilient, and designed to support healthier, more sustainable communities for the future.

Adaptive Reuse and Creative Spaces

With cities constantly looking for new space, these innovative sessions explore how architects breathe new life into old structures through adaptive reuse and creative transformation. Our students examine the balance between preserving cultural heritage and meeting modern needs, while learning how mixed-use developments and innovative design can turn forgotten spaces into vibrant, functional environments with renewed purpose. This topic is typically enhances by site visits which demonstrate adaptive reuse in the real world.

Urban Planning and Big Ideas

Let's dive into the principles of urban planning and how thoughtful design shapes liveable, efficient cities. Students learn how public spaces, transportation, and infrastructure come together to create vibrant urban environments. We look at mega development sites and how, even at scale, these developments manage to remain connected, and future-ready.

OUR INSPIRING LOCATIONS

Each of our locations has been chosen for its safety and ability to immerse students into a culture that enhances our globally focussed programmes. Our host locations offer an inspiring environment for our students to study in. In Boston and London our students have the added benefit of sampling life on the campuses of a world class, top ranked, universities.

Each of our locations use English as one of their main languages and our host campuses provide a good standard of safe accommodation in university style student bedrooms. All of our academies offer a wide range of exciting activities and excursions that not only highlight the locality and immerse our students in the local culture, but also help to shape them as future leaders and create positive changemakers.

It was great. I met a lot of wonderful people, hope to see everyone and the programme staff again one day, and highly recommend this experience to everyone. — *Federico (Student), Colombia*

BOSTON, USA

Programme available: Global Leadership
Ages: 13-17
Dates: 27th June - 8th August
Price: $7,290 per 2 week stay

Founded in 1630, Boston is one of the US's oldest municipalities and has played a key role in several US historic events.

It is the capital and largest city in Massachusetts and today Boston is recognised as a global leader in higher education and academic research with both Harvard University and MIT based there. With a strong entrepreneurial vibe, the city is also seen as being a pioneer in innovation, making Boston the perfect location for Global Achievers Academy.

Our Boston students have the opportunity to live on campus in university halls of residence at the highly ranked Tufts University where they also take some of their lessons.

In addition, classes, delivered by the Global Achievers Academy expert tutors will also take place at the Harvard Medical School.

Students are transfered to and from Tufts University to any off campus lessons by private school bus, accompanied by our dedicated team of staff.

Tufts is set in 150 acres with a wealth of sports facilities and green spaces, the halls of residence provide the perfect backdrop for students to relax, sleep and eat after a busy day of learning!

Tufts is listed as one of the 'little ivies' – a group of private liberal arts universities known for their academic competitiveness. Tufts university has very high standards of academic excellence and is seen as a prestigious and highly selective institution meaning that our Boston students benefit from experiencing multiple elite educational establishments.

Accommodation is in twin rooms, with common bathrooms along the corridor. Communal spaces are also available.

With a wide variety of cultural visits including local museums, a guided tour of Harvard University & MIT as well as a visit to Fenway park - the home of the Boston Red Sox and the oldest baseball park in the world, students experience the best of Boston and a world class summer experience!

LONDON, UK

Programmes available:
Global Leadership, Architecture
Ages: 13-17
Dates: 24th June - 5th August
Price: £5,650 per 2 week stay

Named The Times University of the Year 2024, UCL is one of the world's leading universities and is ranked number 1 globally for Architecture!

Established in 1826, UCL is ranked in the top 10 universities globally and has a world class reputation, especially for world-class research, global influence and impact across a broad range of subjects.

Known as 'London's Global University', UCL is the perfect choice for our Global Achievers Academy. Students joining the programme in London stay in the new, state of the art, sustainable student residence at UCL in single rooms, each with their own private bathroom. The rooms are arranged in small apartments of 9 rooms with communal kitchens and common spaces available to all of our students.

The residence, located within the Queen Elizabeth Olympic Park, is within easy walking distance of the classes and dining hall all located on the brand new UCL East campus, a campus designed for its graduates 'to tackle the biggest challenges facing our planet'.

The campus is well connected to the many iconic sights of London and close to the City of London and the financial district.

With central London a short underground ride away, our students make the most of this historic and iconic city. Explore South Bank at night, shop in Covent Garden and have fun in England's capital city!

The programme also includes a night out at a West End Musical, time to explore the university cities of Cambridge and Oxford.
